Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? No

Website address:

Explain: The Company is a small rural carrier that does not have the resources to maintain an extensive website. The Company orders phones for customers through iwireless, and customers that require additional information are referred to iwireless's website at http://iwireless.com/customer_support-hearing_aid.asp.

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: The Company is a small rural carrier, and it does not have any retail stores where it can post hearing aid-compatibility information or make brochures available to customers. However, brochures and other relevant materials are available at the Company's main office in town. The Company makes information available to customers on an as-needed basis, and it refers customers that need information on hearing aid compatible handsets to iwireless's website at http://www.iwireless.com/customer_support-hearing_aid.asp.

Methodology for Functionality Levels

Each handset model is described by its capabilities regarding features and functionalities.

Report Remarks

Although several of the handsets available to customers from the Company via iWireless's website are capable of operating on the WCDMA air interface, the Company only operated on the GSM air interface in the reporting year. The Company did not offer service using the WCDMA air interface in the applicable time period. The HAC handset benchmarks set forth in Section 20.19(c)(3) apply only for each interface actually offered by a carrier, and the HAC handset requirements for a particular interface are triggered only after a service provider has actually started providing service using that air interface. Hearing Aid-Compatible Telephones (Petitions for Waiver of Section 20.19 of the Commission's Rules), Memorandum Opinion and Order, 22 FCC rcd 7171, para. 60 (2007). Accordingly, the HAC handset requirements with regard to the WCDMA air interface are inapplicable to the Company.
